

Jacob Orbach

Full Stack Developer

Tel Aviv, Israel | jacoborbach96@gmail.com | 053-474-9067 | linkedin.com/in/jacoborbach | github.com/jacoborbach | www.jacoborbach.com

Professional Summary

Full Stack Developer specializing in SaaS platforms, SDKs, payment integrations, and OAuth-audited consumer data tools. Built payment systems processing \$1M+/year at scale and independently shipped revenue-generating products including a 10KB embeddable chat SDK and a Google CASA Tier 2 certified Gmail tool Featured on the Chrome Web Store.

Key Skills: React, Next.js, TypeScript, Node.js, SDK Design, Payment Integrations, Cloud Architecture

Experience

One Digital – Full Stack Developer (2024–2026)

- Developed an **end-to-end Strapi payment system**: integrated Meshulam SDK, processed \$1M+/year in transaction volume, built frontend SDK, lifecycle hooks, and webhook reconciliation flows.
- Implemented **Dockerized Puppeteer on Azure Functions** for automated PDF invoice generation.
- Built **30+ custom React-based Gutenberg blocks** and automated ACF block generator (Laravel), cutting dev time by 80%.
- Led **Strapi-to-Azure workflow design**, coordinating frontend, backend, and DevOps pipelines.
- Optimized **Azure PostgreSQL APIs** and Bitbucket CI/CD; implemented RTL localization.

Key Technologies: React, Node.js, PHP, WordPress, Strapi, Laravel, Azure, Docker, CI/CD

Hertz Furniture – Full Stack Developer (2022–2024)

- Migrated 100K+ records to Salesforce; built REST APIs and automated workflows.
- Integrated Microsoft Graph API for OneDrive, cutting storage costs by 40%.
- Implemented SignNow e-signatures, reducing contract turnaround time by 90%.
- Developed Yii/PHP backend systems and Webix/jQuery frontend tools.

Key Technologies: PHP, Yii, Salesforce API, Microsoft Graph, REST, Webix

Elphi (SaaS) – Full Stack Developer (2022)

- Migrated Firebase to PostgreSQL, improving performance and analytical stability.
- Added GraphQL subscriptions for real-time UI updates.

Key Technologies: Firebase, PostgreSQL, GraphQL, Node.js

Projects

- **Gmailytics – Mass Email Unsubscribe Tool (2026)** – SaaS web app for bulk email unsubscription management. Built full OAuth 2.0 authentication flow, Gmail API integration, and batch processing pipeline. Google CASA Tier 2 certified, Featured on Chrome Web Store, 3M+ emails processed. gmailytics.com
 - **GhostChat (2025)** – 10KB embeddable SDK for third-party sites using Cloudflare Workers and Durable Objects. Designed initialization flows, multitenant isolation, event pipelines, and webhook architecture enabling external AI agents to drive conversations. Live with paying customers. ghostchat.dev
 - **KaspaWoo – WooCommerce Payment Gateway (2025)** – Custom WordPress plugin with PHP backend, frontend SDK, webhook handling, and order reconciliation for live Kaspa cryptocurrency payments. Published and live. kaspawoo.com
-

Technical Skills
